

## **REMARKS**

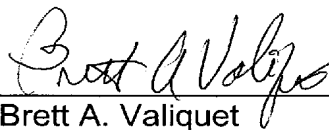

Applicants elect the Group II claims with traverse.

The Examiner contends that the Group II claims are drawn to a cleaning unit having an abrasion element and capture reservoir. However from the Group II claims, the Examiner excludes claims 26-27 which depend from independent claim 25. However, claim 26 incorporating the limitations of independent claim 25 is also drawn to a cleaning unit having an abrasion element and capture reservoir. Therefore claims 26 and 27 must be included in Group II.

Similarly, the Examiner excludes from Group II claim 48. Claim 48 depends from claim 47 and therefore also incorporates a method for cleaning having an abrasion element and a capture reservoir. Therefore, claim 48 must also be included Group II.

Reconsideration is respectfully requested.

Respectfully submitted,

(Reg.No.27,841)
